EMPOWERING YOUR BUSINESS

EQUIPMENT SOLUTIONS

With decades of experience installing thousands of electric power systems, Yancey Power Systems has the experience and equipment to meet the needs of your unique business.

DIESEL STANDBY GENERATORS

- Commercial generators: 100 kW to 10,000 kW
- Industrial generators: 100 kW to 10,000 kW

ASEOUS STANDBY GENERATORS

- Commercial generators: 100 kW to 10,000 kW
- Industrial generators: 100 kW to 10,000 kW

DIESEL AND ASEOUS MOBILE GENERATORS

- Mobile generators: 100 kW to 10,000 kW

USED DIESEL AND ASEOUS GENERATORS

- Buy, Sell, and Consign Used Equipment

AND FINANCIAL AND ASSET MANAGEMENT SOLUTIONS

- Equipment Solutions: 100 kW to 10,000 kW

SOLAR, ENERGY STORAGE, AND MICROGRID SOLUTIONS

- Solar Panels, Racking, and Inverters
- Battery Storage Systems and Microgrid Controllers

WATER TURBINES

- Power generation as Turbines: .1 MW to 10 MW

AUTOMATIC AND MANUAL TRANSFER SWITCHES (ATS)

- Open, Delayed, and Closed Transition: 100 Amps to 10,000 Amps
- Bypass Isolation: 100 Amps to 10,000 Amps
- Service Entrance Rated: 100 Amps to 10,000 Amps

GENERATOR PARALLELING SYSTEMS

- Onboard generator Paralleling
- Custom and Manual Paralleling Switchgear

UNINTERRUPTIBLE POWER SUPPLY (UPS)

- Battery, Flywheel, and Rotary Solutions

CUSTOM ENCLOSURES, FUEL TANKS, AND TESTING

- Manufactured by Yancey Engineered Solutions in Griffin, GA

POWER SYSTEM ACCESSORIES

- Generator and Load Banking Stations, Load Banks,

Emissions Solutions and Many Other Accessories ENGINEERING

AND PROJECT MANAGEMENT SUPPORT

- Georgia-based Engineering and Project Management Support
- Generator Sizing, Application and Engineering, Technical Information and Drawing Support
- Turnkey Installation and Replacement Services

MAINTENANCE SOLUTIONS

CUSTOMER SUPPORT FOR GENERATORS AND ENGINES

We offer a complete range of support services for your standby system, including generators diesel and gas , ATS, switchgear, UPS, and more. From product commissioning, to parts supply and parts logistics, maintenance and repair agreements, Yancey has you covered.

Our Caterpillar Factory Trained and Certified expert technicians are available to help you protect your investment and achieve maximum generator life, maintain reliability, and minimize downtime.

Yancey Power Systems has a variety of solutions to help you minimize your owning and operating costs including:

- Generator Preventive Maintenance Agreements and Repairs
- ATS and Switchgear Maintenance Agreements and Repairs
- Diesel Fuel Polishing and Long Term Treatment
- Generator Load and Testing Resistive and Reactive
- Extended Service Warranty Coverage
- Complete Engine Overhauls Standard and Cat Certified
- Genuine Cat Parts
- Onsite Generator and Systems Training

SWITCHGEAR AND ATS MAINTENANCE AND REPAIR

Yancey offers a full range of switchgear and ATS services, including:

- Maintenance agreements
- Repairs
- Conversions
- Diagnostic testing
- Evaluation

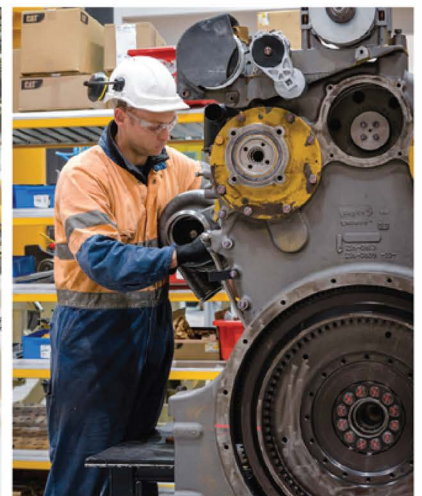

We provide professional service for Cat® branded distribution equipment and distribution equipment from any other manufacturer. Our services can increase the reliability, predictability, and operation of your switchgear and associated distribution equipment.

We Service more than just Cat gensets. Our techs are experienced with a variety of makes including:

Caterpillar	Volvo
Waukesha	Kohler
Detroit	Generac
Cummins	Mitsubishi
MTU	

FUEL ANALYSIS OIL, COOLANT, AND DIESEL FUEL

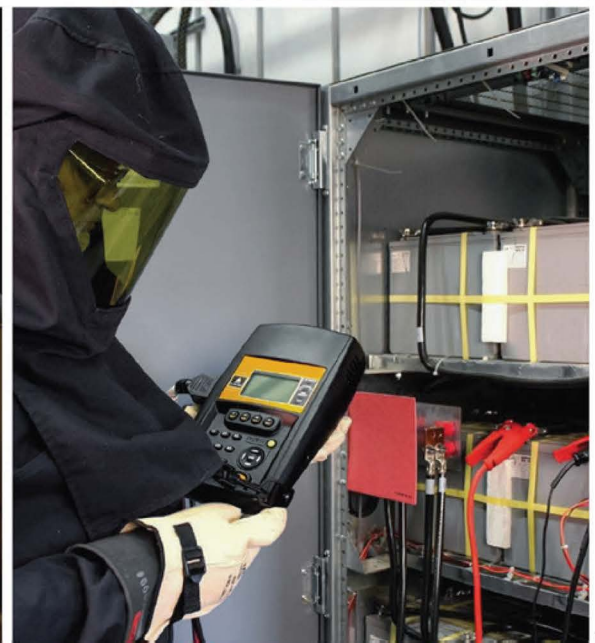

Maintaining Emergency Power fuel systems is critical for continued system readiness. It is crucial to have a total system preventive maintenance program that includes the engine, generator, ATS, and fuel systems. Yancey Power Systems has added Yancey Fuel Solutions into our already robust line of preventive maintenance services in order to create a total solutions preventive maintenance program. Yancey Fuel Solutions has a comprehensive fuel system PM program that includes full system inspection, in tank camera inspections, fuel sampling, lab analysis, fuel treatment regulatory compliance, fuel polishing, and tank bottom cleaning.

Constant quality power to your business is critical. Yancey Power Systems offers a full line of standby and prime electric generators, switches, backup power supplies and auxiliary distribution equipment. From the largest data center to local hospitals, from governmental installations to industrial facilities, Yancey will keep you running.

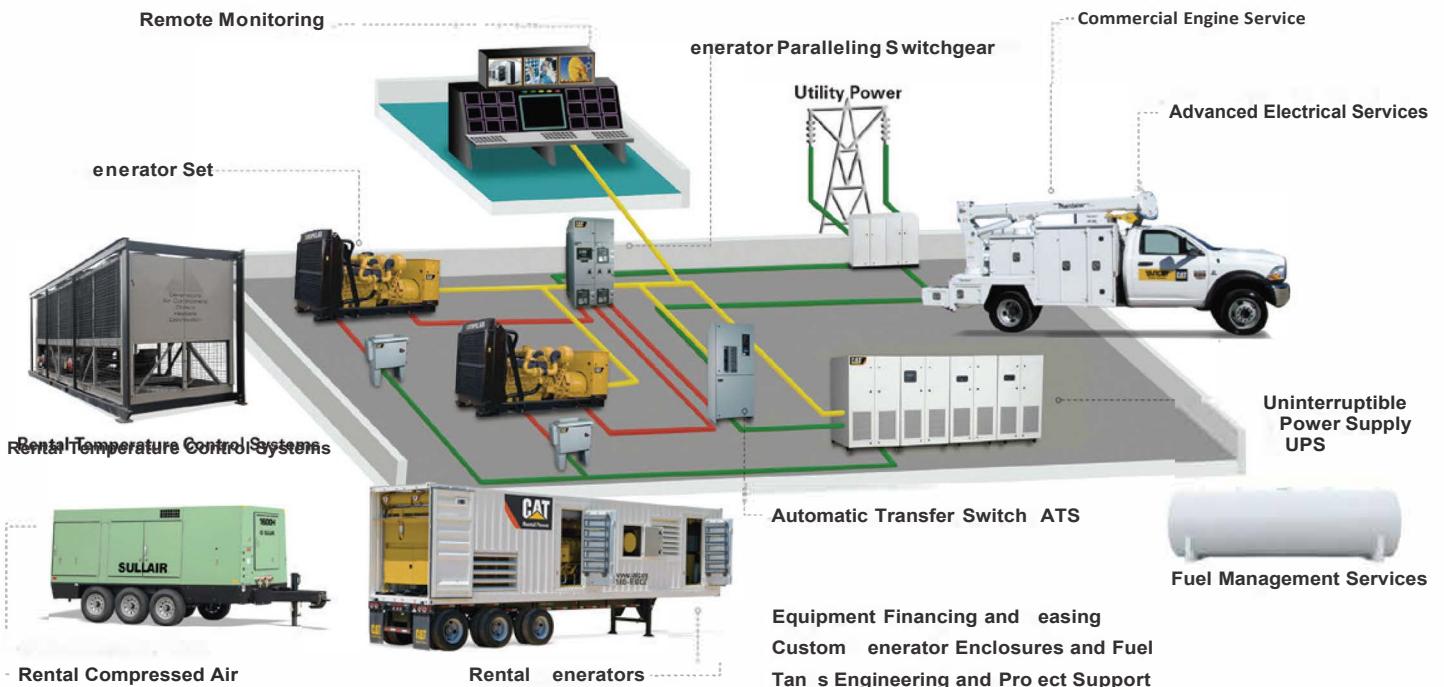

We're certain you won't find a more comprehensive breadth of products and services anywhere and that's why we say you'll see The Yancey Advantage - Serve...Solve...Succeed!

YOUR TOTAL POWER SOLUTIONS PROVIDER

Yancey Power Systems has provided world class power generation systems for over 40 years. We have one simple goal "To exceed our customers expectations by providing outstanding service support for generators and power distribution in a professional and consistent manner."

Yancey Power Systems has many facilities throughout the state of Georgia. We supply critical power system equipment to hospitals, data centers, water treatment plants, and many other businesses. We are leaders in engine driven electric power generation, uninterrupted power supply UPS, switchgear and automatic transfer switches ATS, compressed air, temperature control products, and load banks. Our service team is comprised of factory trained, certified technicians, and highly trained engineers and support staff to keep your crucial electrical systems running smoothly. Yancey Power Systems can provide and service a fully integrated power envelope solution for your facility.

YANCEY POWER SYSTEMS QUICK FACTS:

- Single point accountability
- Thirty dedicated electric power trained, Georgia based, field technicians... the most of any generator dealer in Georgia
- Eight switchgear certified and trained field technicians
- On call field service
- Yancey owned oil and coolant analysis testing lab
- Over MW of Yancey owned, Georgia based, load bank testing equipment
- 100% of parts available off the shelf
- 100,000 sq. ft. parts warehouse
- 1.5 M Yancey parts in inventory
- Over MW of Yancey owned, Georgia based, rental power. Largest fleet of generators owned by a generator dealer in Georgia
- Backed by over 1.5 gigawatts of US Caterpillar dealer owned rental power

RENTAL SOLUTIONS

PORTABLE GENERATORS

- Diesel driven
- 1000 to 1000000 Watts
- 100 to 1000000 BTU/hr
- 100 to 1000000 BTU/hr
- Standard Quiet Super Quiet
- Skid Trailer Mounted

Reliable Cat Rental Power is always available from our rental fleet, one of the largest in the Southeast. We're ready with prime, standby, or emergency power when and where you need it. From plant shut downs to entertainment, construction to equipment testing, Yancey Power Systems has the electronic power you require.

AIR COMPRESSORS

- Sullair and Atlas Copco
- Diesel driven Cat Engines
- 100 to 1000 CFM
- Oil Flooded and Oil Free
- Diesel and Electric
- High pressure and Extra High Pressure
- Skid Trailer Mounted

Our air compressors are known for high efficiency, easy maintenance, and reliability. They are designed for safe, continuous use. Detailed curb side instrumentation panels have many features including tachometer, compressor air pressure, hour meter, voltmeter, engine oil pressure, water temperature, and fuel levels.

TEMPERATURE CONTROLS

- 10 to 1000 Ton Chillers
- 10 to 1000 Ton Air Conditioners
- 10 to 1000 Ton Electric Heaters
- Diesel engines, TURBO
- 100 to 1000 CFM Dehumidifiers
- Thermostatically Controlled
- Cooling Towers
- Heat Exchangers
- Temporary ducting and hoses

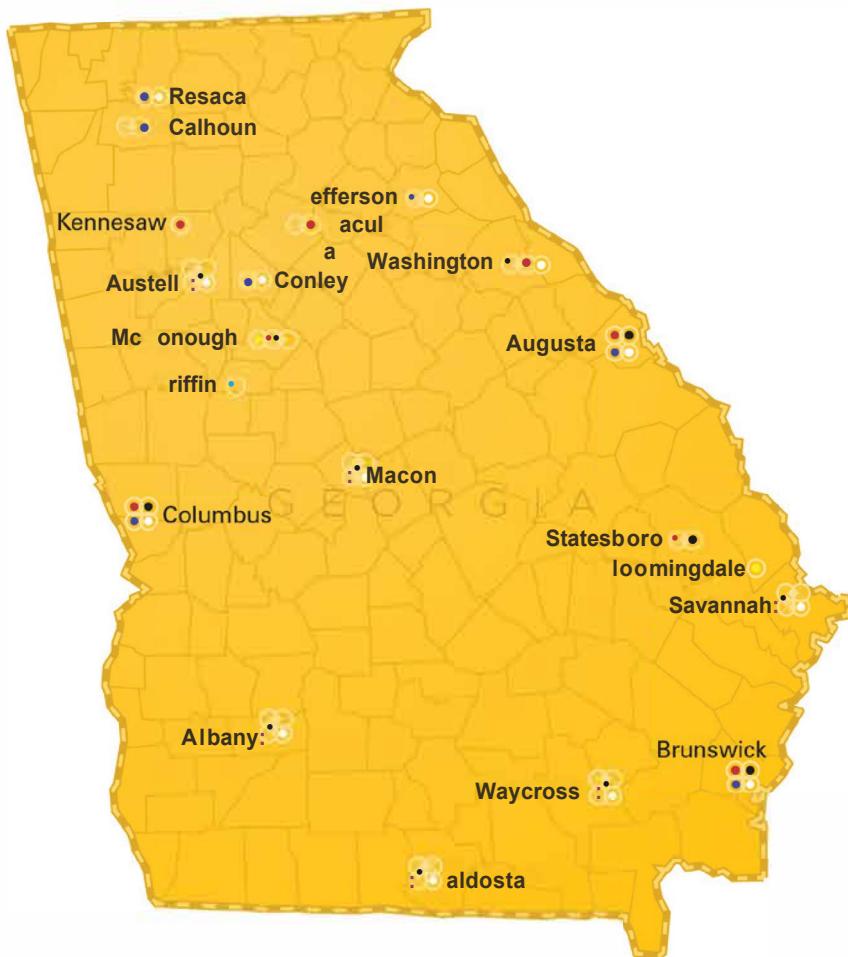

Chillers permanently mounted in ISO containers arrive onsite ready to work. Integral pumps, motor control centers, strainers, and valves are all included. Direct expansion air conditioners produce up to 1000 CFM of cool, dry air for tents, warehouses, data centers, and manufacturing processes...anywhere you need conditioned air.
