

# TURN YOUR DATA INTO PROFIT

The assets on your job site have a story to tell. To understand the entire narrative, you need more than a box and slick software. You need perspective, and the kind that can only be gained by spending decades in the dirt. Yancey appreciates the opportunity to put our perspective to work for you. We're sold on the value of connectivity, not just because the technology is available, but because it's delivering big benefits worldwide.

## CONDITION MONITORING

**CAT® trained Condition Monitoring Analyst review and inform.**

- + Repair and Component History
- + Telematics Data - events & diagnosis
- + Inspection Items to Address
- + Fluid Sampling Items to Address

**Event reports sent to consolidate large amounts of related events.**  
**Allows you to manage your operation while we monitor your fleet.**

## FLEET MANAGEMENT SERVICES

**Scheduled conference calls to review the fleet.**

- + Summary and Utilization
- + Downtime Report
- + Open / Closed Work Orders
- + Upcoming Periodic Maintenance
- + Fault Codes
- + Fluid Samples
- + Backlog Items - items found on inspections and operator reports to plan for future downtime

**Allows you to control downtime and what repairs are needed and completed.**

**80%** of major catastrophic failures can be identified and repaired before failure.

# FIND WHAT WORKS FOR YOU

Yancey Bros. Co. has a vast portfolio of technology enabled services designed to help you manage your fleet and optimize efficiency. The level and type of equipment support you need is dependent on different factors including the size, type and location of your operations.

## LEVEL 1: INFORM

Inform yourself with timely, critical machine data. Once your machine is connected and your subscription is activated, you'll begin receiving information that will help you better manage your equipment.

## LEVEL 2: ADVISE

Get expert advice from a dedicated consultant and receive recommendations about equipment maintenance, utilization and repairs, as well as a neatly packaged quarterly fleet report.

## LEVEL 3: PARTNER

Devote more time to managing your projects and less time to managing your fleet. Yancey will provide Preventive Maintenance Kits ranging from filters and fluids to scheduling and performing maintenance.
