

DIGITAL TECHNOLOGY FOR CONSTRUCTION

What are your business goals and how will you reach them? Construction Digital & Technology offers three suites of digital products designed to help you reach your business goals.

Yancey offers three digital solutions to help you manage your equipment and job site productivity:

1. DIGITAL FLEET MANAGEMENT

Leveraging telematics data from Cat® and non-Cat assets, digital fleet management solutions provide your customers with critical information that helps them:

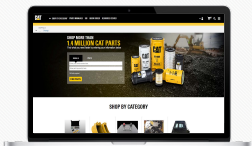

- » Improve productivity
- » Optimize utilization
- » Reduce operating costs
- » Control maintenance costs.

2. DO IT YOURSELF

Connect for machine health with Remote Services. Remote Services give you the power to diagnose equipment problems and update systems from anywhere with an internet connection.

- » Remote Troubleshoot: Run diagnostic tests while the machine is operating.
- » Remote Flash: Update on-board software without sending a technician.

TECHNICAL ASSISTANCE

- » Assistance when and where you need it at a reduced hourly rate.

3. CAT PRODUCTIVITY

Cat Productivity lowers cost per ton by offering remote access to Cat Production Measurement data that provides advanced insights into:

- » Production reporting
- » Cycle segmentation analysis
- » Utilization
- » Payload

THE RIGHT DIGITAL SOLUTION FOR EVERY FLEET

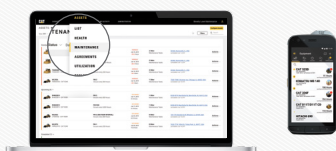

Providing digital fleet management solutions tailored to you allows us to offer advanced fleet management packages that can help you manage growth and meet your business objectives.

FLEET MANAGEMENT SOLUTIONS TAILORED TO YOUR NEEDS

Leveraging telematics data from Cat® and non-Cat assets, digital fleet management solutions provide you with critical information.
