

TECHNICIAN BOOT CAMP

No experience? No problem.

Yancey's Technician Boot Camp is an accelerated six month training program where you will build your technical confidence through academic and hands-on training.

With only 5-openings per session, trainees are able to learn in a small group environment led by an experienced instructor. Sessions are held at multiple Yancey Bros. Co. locations throughout the year.

Tools provided for your success- literally!

We understand that you may be starting with little to no experience and are dedicated to your success. A comprehensive tool set / tool box worth \$7,000 will be provided for use during the apprenticeship. After graduation, you advance to a level 1 or 2 Technician and the filled toolbox is yours to keep after two years of service.

Interested?

- Candidates must pass the online and hands-on mechanical assessments to move forward with the interview process.
- Boot Camp Trainees are considered full-time employees and are eligible for benefits. Starting pay ranges from \$16.50 - \$18.00 per hour (based on experience), and goes up to \$20.00 once graduated.
- After completing the program and advancing to a level 1 or 2 technician, you will also be eligible for a monthly productivity bonus.
