

VISIONLINK[®]

CONFIGURE NOTIFICATIONS

GETTING STARTED IN VISIONLINK[®]

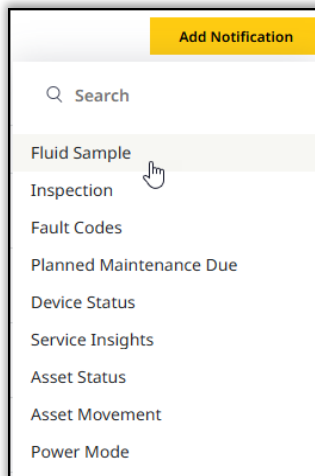

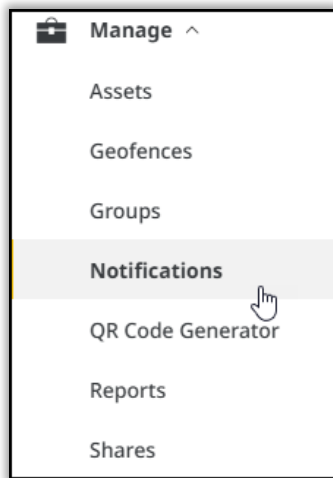

The VisionLink[®] Fluid Analysis space is expanding in 2025. To ensure a smooth transition to VisionLink Fluid Analysis powered by S•O•SSM Services, **start preparing today!**

Please note, VisionLink Fluid Analysis notifications must be configured for your organization.

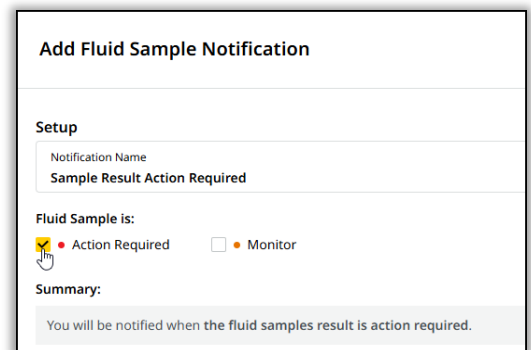

HOW TO CONFIGURE NOTIFICATIONS:

You or your dealer can configure the fluid analysis notification from the Manage > Notifications area of VisionLink.

+ Navigate to Manage > Notifications page.

+ Follow instructions in the configuration window.

+ Click the "Add Notifications" button and select "Fluid Sample" option.

? For more information on configuring Notifications, see the VisionLink Help Center for guided tours and FAQs:

- + Manage Notifications Tour
